DETAILED ACTION

Current Status

1. This action is responsive to Applicants' amendment of 14 April 2008.
2. Receipt and entry of Applicants' amendment is acknowledged.
3. Claims 1-7 and 9-18 are pending in the application.

The 102 rejection of claims 1-7 under 35 U.S.C. 102(b) as being anticipated by Jenke et al., {US 5,869,728} is maintained for the reason stated in the previous Office Action dated 11/13/2007.

Applicants' arguments filed 14 April 2008 have been fully considered but they are not persuasive. Applicants argue that the order of reaction afforded unexpected result of the product yield. However, the examiner noticed that the prior art process is virtually quantitative; that is, 99% yield and purity of >97%. See example 2. The Examiner, also, notes that there is no significant improvement in terms of unexpected result that the current process provides.

The 103 rejection of claims 1-7 and 9-18 under 35 U.S.C. 103(a) as being unpatentable over Jenker et al., {US 5,869,728} is maintained for the reason stated in the previous Office Action dated 11/13/2007.

Applicants argue that the order of reaction afforded unexpected result of the product yield. However, the examiner notices that the prior art process is virtually quantitative; that is, 99% yield and a purity of >97%. See example 2. The Examiner, also, notes that there is no significant improvement in terms of unexpected result that the current process provides. All the claimed elements were known in the prior art cited and one

skilled in the art could have combined the elements as claimed by known methods with no change in their respective functions, and the combination would have yielded predictable results to one of ordinary skill in the art at the time of the invention.

THIS ACTION IS MADE FINAL. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
